WORLD MARKET CENTER

WELCOME

World Market Center invites you to experience the latest in home entertainment furnishings

The trends for the coming year are being set right here and smart buyers rely on us for their most successful seasons.

World Market Center, the premier home furnishings showroom and trade complex invites you to visit more than a dozen showrooms that will be open during the consumer electronics event in Las Vegas on January 7th and 8th. World Market Center brings you the most comprehensive collection of permanent showrooms showcasing the latest in home theater entertainment, computer and home-office furnishings — all under one roof.

Limousine service is available to and from the Las Vegas Convention Center on both Monday and Tuesday, January 7th and 8th from 8 am – 4 pm. As our guest, please enjoy complimentary breakfast and lunch both days of the event, free gifts and an entry into a drawing for a Las Vegas trip giveaway!

Also as part of the event, World Market Center in conjunction with leading trade publication *Furniture Style* will present a two-part educational program, “Tune In,

Turn It Up: Home Entertainment Furniture Trends.” Furniture Style Editorial Director Julie M. Smith will present exclusive data from *The Retail Experience*, a consumer research report that investigates consumers’ furniture purchase trends and preferences.

The program will be offered in two 50-minute segments tailored to big box retailers as well as furniture stores. Both presentations will track trends over the past three years and focus on relevant changes in the home entertainment furniture category, including amounts spent, Internet usage, purchase motivators and more. Executives from both store formats will learn how to leverage their strengths in an increasingly competitive environment. Plus, attendees will receive results from the 2008 research study, which won’t be available until March 2008.

Inside this guide you will find a comprehensive listing of World Market Center permanent showrooms that will be open during CES. The list contains contact information including mailing address, phone, fax and email as well as a list of open showrooms

listed by product category. We hope you use this guide to plan your trip to World Market Center while you are in Las Vegas in January.

To schedule an appointment for your transportation to World Market Center please call (702) 599-3093 today.

World Market Center will eventually span 12 million square feet of furnishings showrooms and represent the future of the home furnishings industry. While you are here don’t miss more than 70 designer showrooms in the Las Vegas Design Center — the first two floors of Buildings A & B. We are pleased to have this opportunity to introduce some of our tenants to you and look forward to serving you throughout the year.

Best regards,

The Team at World Market Center

“Tune In, Turn It Up: Home Entertainment Furniture Trends” seminar series at World Market Center

World Market Center in conjunction with leading trade publication *Furniture Style* will present a two-part educational program, “Tune In, Turn It Up: Home Entertainment

Furniture Trends.” New consumer expectations about style, function and price are dictating how and where consumers are shopping for home entertainment furniture.

Furniture Style Editorial Director Julie M. Smith will present exclusive data from *The Retail Experience*, a consumer research report that investigates consumers’ furniture purchase trends and preferences.

The program will be offered in two 50-minute segments tailored to big box retailers as well as furniture stores.

January 7, 2008 at 8:30 a.m.

Bush Industries A-610

A significant number of home entertainment purchases are made in

big-box and discount retail stores and this seminar will cover the changes and trends among this market segment. Following a presentation of *The Retail Experience* data, executives from Bush Industries will participate in a panel discussion.

January 8, 2008 at 8:30 a.m.

Riverside Furniture B-1175

Which consumers purchase home enter-

tainment furniture in traditional retail stores and why? Following a presentation of *The Retail Experience* data, executives from Riverside Furniture will participate in a panel discussion.

Both presentations will track trends over the past three years and focus on relevant changes in the home entertainment furniture category, including amounts spent, Internet usage, purchase motivators and more. Executives from both store formats will learn how to leverage their strengths in an increasingly competitive environment. Plus, attendees will receive results from the 2008 research study, which won’t be available until March 2008.

“Despite the recent dip in home furnishings sales, the home entertainment furnishings category remains healthy,” said Julie Smith. “Our data shows that more than 40 percent

of recent home entertainment purchasers bought both home entertainment furniture and a new TV at the same time,” added Smith.

Jim Schmidt II of Bush Furniture says furniture plays such an important part of the TV purchase process, and having the right well merchandised assortment has never been more important. “2008 will be an exciting year for television sets as they transition to all High-Definition, which means it will be a terrific year for entertainment furniture,” said Schmidt. “TV’s will be larger than the ones they are replacing and they will need stylish and safe furniture to display them on.”

Manufacturers like Riverside Furniture know that consumers continue to want the latest to complement their high-tech investments. “The consumer electronic event is renowned for introducing the latest trends in home and lifestyle entertainment,” said Vice President of Marketing at Riverside Linda Owen. “It’s a natural progression for the furniture industry to open World Market Center permanent showrooms that feature furniture uniquely designed to accommodate the electronic innovations that are changing our homes and our lives.”

designed for living.

designed for safety. designed to last. designed for living.

Not only is Bush furniture designed to be safe and durable, it comes in a variety of styles to complement any décor. Plus, it integrates current technology, making it a perfect fit for today's lifestyle.
