

KITCHEN: LAUREN O'CONNOR

I've always gravitated toward a natural, honed mix of materials that create a peaceful, timeless feel in my clients' homes. To achieve that sense of timelessness, I make a point to sidestep the trends and create a design that is either completely unique or a fresh twist on a classic.

This kitchen was inspired by a perfect summer getaway to Avalon Cove on Santa Catalina Island. Its Catalina Casino, an Art Deco landmark built in 1929, welcomes visitors approaching the island from the mainland. Each time we visit, I marvel at its history and the incredible natural stone mosaics out front.
